

BALLISTIC HELMETS

MICH (ACH) MIDCUT

The MICH (or ACH) Helmet was designed to replace the in service PASGT helmet. A four point harness is anchored to the shell with ballistic resistant bolts.

Features

- The MICH helmet features a reduced weight, higher cut at the back and sides and removal of the front peak.
- This low profile provides excellent compatibility with additional equipment.
- The helmet is constructed from para aramid material and provides robust protection.

Ballistic Protection

The MICH Helmet is available to meet NIJ Level II and IIIA as well as bespoke options to meet specific client needs.

Fragmentation Protection

Protection against fragments from V50 650m/sec according to STANAG 2920 (17gr FSP) and US MIL STD 662F.

Sizes

Small, Medium, Large and Extra Large (50-66cm head circumference)

Colours

Standard colours are black, navy blue, olive drab. Most other colours are available to special order including IRR paint finishes.

Accessories

Accessories include ballistic visors, anti fragmentation visors and anti riot visors. Neck protectors. Various harness options and pads systems, helmet covers, carrying bags and badges or insignia.

Optional:

Added pad system to enhance stability.
